The Department of Finance estimates that as of January 5, 2014, the market value for this property is \$549,000. Finance will use this market value to determine your property taxes starting July 1, 2014.

Finance estimated your property's market value using the income approach.

Factors Used By Finance To Determine Market Value:

- Building Gross Square Footage: We estimated building gross square footage at 4,500.
- Gross Income: We estimated gross income at \$64,035.
- Multiplier: We used a gross income multiplier of 8.580 which is our estimate of the relationship between the property's income and the property's market value.

Under State law, your assessed value cannot increase more than eight percent per year and 30 percent in five years unless you make a physical change to your property. Since you made a physical change to your property, your assessment was probably increased more than eight percent this year.
