**Definitions**

**Market Value** is the estimated value for Class 4 properties based on income and expense information provided by owners from renting these properties.

**Assessment Percentage** is a fixed percentage of Market Value that is set by law. For Class 4 properties, it is 45%.

**Actual Assessed Value** is calculated by multiplying your Market Value by the Assessment Percentage.

**Transitional Assessed Value** is the phase-in of changes to your Actual Assessed Value. N.Y. State law requires that changes to your Assessed Value are phased in at 20% of the change over a five-year period. The Transitional Assessed Value represents all of the changes that are being phased-in for this coming tax year.

**Exemption Value** is the amount of the reduction in your assessed value as a result of any property tax exemptions you receive. This value is subject to change. If you recently applied for exemptions, they may not be listed. For more information about exemptions, visit [nyc.gov/ownerexemption](http://nyc.gov/ownerexemption) or contact 311.

**Taxable Value** is the lower of Actual or Transitional Assessed Value minus the Exemption Value.

**Estimate your property taxes** for 2018/19 by multiplying your Taxable Value by the current tax rate, and then subtract abatements. The result will be an estimate of your property taxes for 2018/19.

**Why Were There Changes?**

We adjusted the value to correct an error.
