## ABOUT YOUR PROPERTY TAXES

Property taxes are determined using a complex formula that takes into account many different amounts and calculations. Visit [www.nyc.gov/nopv](http://www.nyc.gov/nopv) for more information about property valuation and taxation.

The Department of Finance estimates that as of January 5, 2019, the Market Value for this property is \$1,436,000. The Department of Finance will use this Market Value to determine your property taxes starting July 1, 2019.

The Department of Finance estimates your property's Market Value using the income approach. Market Value is determined by dividing the net operating income by the overall cap rate.

The following factors are used by the Department of Finance to determine Market Value:

Estimated Building Gross Square Footage: 9,600  
 Estimated Gross Income: \$239,954  
 Estimated Expenses: \$36,017

Net Operating Income: We subtract estimated expenses from estimated gross income, resulting in a net operating income of \$203,937.

Base Cap Rate: We used a capitalization rate of 9.470% which is Finance's estimate of the rate of return that an ordinary investor would expect on their investment in this type of property.

Overall Cap Rate: We add an effective tax rate of 4.731% to account for taxes due. Added together your overall capitalization rate is 14.201%.

Visit [www.nyc.gov/nopv](http://www.nyc.gov/nopv) for more information.

If you own income-producing property, you must file a Real Property Income and Expense (RPIE) statement or a claim of exclusion unless you are exempt by law. The deadline to file is June 3, 2019. Failure to file will result in penalties and interest, which will become a lien on your property if they go unpaid. Visit [www.nyc.gov/rpie](http://www.nyc.gov/rpie) for more information.
