This is your annual notice of property value, or NOPV. It is not a bill, and no payment is required. This notice will:

- Inform you of our assessment of your property for tax year 2019-20, and tell you how to challenge it if you believe there is a mistake.
- Explain how property taxes are calculated.
- Provide an estimate of your property tax for tax year 2019-20.

Please keep a copy of this notice with your records. You may also view your NOPV and property tax bills online at www.nyc.gov/nopv.

ESTIMATED 2019-20 PROPERTY TAX

We cannot calculate your 2019-20 property tax until the new tax rate is established by the city council. Until then, you will pay the 2018-19 rate. Many factors influence the amount you will owe, including the value of any exemptions you receive. See page two for details about how property tax is calculated.

The table below estimates the amount you will owe by multiplying the taxable value of your property by the current tax rate of 20.919%. This table is provided for informational purposes only; the actual amount you owe may differ, depending on the 2019-20 tax rate and the value of your exemptions and abatements.

Year	Taxable Value		Tax Rate		Estimated Property Tax
2019-20	\$30,786	x	0.20919	=	\$6,440.12

ABOUT YOUR PROPERTY TAXES

Property taxes are determined using a complex formula that takes into account many different amounts and calculations. Visit www.nyc.gov/nopv for more information about property valuation and taxation.

First, we estimate the MARKET VALUE of your property.	\$1,358,000
We start by looking at the selling prices of properties in your neighborhood with characteristics similar to those in the description of your property that appears on page three of this notice. We then use statistical analysis to determine your market value.	
Next, we determine the ASSESSED VALUE of your property.	\$32,246
We multiply your market value by an assessment ratio to determine the assessed value of your property. The assessment ratio for properties in tax class 1 is 6% for 2019-20; this is the maximum percentage of market value at which your assessed value can be set. However, there are caps on how much your property's assessed value can increase. Under state law, your assessed value cannot increase more than 6% per year or 20% over five years, regardless of increases to your property's market value, unless the increases are due to construction or renovations.	
From there we are able to determine your EFFECTIVE MARKET VALUE .	\$537,433
After applying the legal caps on your assessed value, we are able to determine your effective market value, which is the market value you are "effectively" paying taxes on. The effective market value is computed by dividing your assessed value by 6%. This number will be important should you choose to challenge our determination of your market value, as your property tax will not go down unless you can prove that your market value should be lower than the effective market value.	
Next we subtract the value of any EXEMPTIONS you receive.	\$1,460
If you receive any exemptions, we subtract their value - your exemption value - from your property's assessed value. Your exemption value is used to calculate your taxable value (see below); it is not the dollar amount that you will save on your property taxes.	
The result is your TAXABLE VALUE .	\$30,786
After subtracting the value of any exemptions you receive, we arrive at your property's taxable value. The amount you owe in property taxes is determined by applying the city's property tax rate, which is currently 20.919%, to your taxable value. Any abatements that you receive are then applied to reduce your tax bill.	

WHAT TO DO IF YOU DISAGREE WITH THESE VALUES

Challenge Your Market Value with the Department of Finance	Challenge Your Assessed Value with the New York City Tax Commission
<p>If you believe the Department of Finance has made an error in determining your market value, you may submit a "Request for Review" form. The form is available at www.nyc.gov/nopv, or by calling 311.</p> <p>Many property owners consider challenging their market value in hopes of reducing their property tax. However, your property tax will not go down unless you can prove that the market value should be lower than the effective market value.</p> <p>Deadline: March 15, 2019</p>	<p>You have the right to challenge your assessed value by appealing to the New York City Tax Commission, an independent agency that is separate from the Department of Finance.
