### Definitions

**Market Value** is the estimated value for 1-3 family homes based on recent comparable sales.

**Assessment Percentage** is a fixed percentage of Market Value. For class 1 properties, it is 6%.

**Assessed Value (AV)** is calculated by multiplying your Market Value by the Assessment Percentage. A cap on AV imposed by New York State law can affect your Assessed Value. Your AV cannot increase more than 6% a year or 20% over five years unless you have made a physical change to your building.

**Effective Market Value** is calculated by dividing the AV by the Assessment Percentage. Your Effective Market Value of \$418,800 is calculated by taking the AV of \$25,128 and dividing it by 6% (.06).

**Exemption Value** is the amount of property tax benefits you currently have (except for abatements, which are not listed above but are listed on your property tax bills). This value is subject to change. If you recently applied for exemptions, they may not be listed. If you would like to apply for any personal homeowner exemptions, please submit your application by March 15, 2017. Other exemptions have different deadlines. For more information about exemptions, visit [nyc.gov/ownerexemption](http://nyc.gov/ownerexemption) or contact 311.

**Taxable Value** is the Assessed Value minus the Exemption Value.

**Estimate your property taxes** for 2017/18 by multiplying your Taxable Value by the current tax rate, and then subtract abatements. The result will be an estimate of your property taxes for 2017/18.

If you believe the Market Value on the NOPV is not correct, you may file a Request for Review. File the form at [nyc.gov/finance](http://nyc.gov/finance) or contact 311 to have one mailed to you. It is important to remember that filing a change request with the Department of Finance is not a substitute for appealing your Assessed Value with the Tax Commission. Read more about how to challenge your Assessed Value on the "What is Your Notice of Property Value" sheet that is included in this mailing.
